Active Partners for a Dynamic Marketplace

Agility’s more than 22,000 employees in over 100 countries around the world are united by a commitment to our customers and energized by our role in helping them succeed. Our Air Freight products are an integral piece of our total freight forwarding capability, which includes Sea Freight, Road Freight and a combined Sea/Air product that leverages efficiencies of both scheduling and cost. Furthermore, Agility provides individual supply chain consultation through our logistics experts and brings specialized knowledge to the specific industries of Fairs & Events, Project Logistics and Chemicals through our specialty businesses. Together, they form Agility Global Integrated Logistics, giving you access to vast resources and a worldwide network of dedicated people.

Agility Logistics Tools
Our full-line of state-of-the-art tracking tools allows you to view shipment status, manage inventory, schedule actions and monitor security. These sophisticated systems ensure seamless communication between networks and provide powerful search capabilities and detailed performance reporting for better transparency and control of your supply chain.
Air Freight Experts

Air Freight Ease

When you have an experienced team of Air Freight specialists delivering on your daily priorities for time, space, frequency and cost, you have Agility’s brand of personal service. We listen, learn and form a close partnership with you to identify your needs and understand your goals. Our standard Air Freight products and their customizable options bring added flexibility to your supply chain. Whether we’re taking extra measures for your sensitive cargo or giving you added supply chain visibility through our online tracking tool, Agility air freight experts are looking to build your trust as they look after your cargo.

Air Freight Products

Wide Range for Greater Flexibility

Our purchasing power and partnerships with some of the world’s premier air carriers enable us to deliver the space allocation, on-time performance and range of products you need. With direct access to all prime carriers, including right and full charter options, and knowledgeable customs clearance experts taking care of processing and documentation, your air cargo not only gets to the right place at the right time—it gets the right treatment every step of the way. Agility’s freight professionals are Cargo 2000 certified, C-TPAT, PIP and TAPA compliant. They are on-site and on-call in major air freight hubs, day and night, taking care of your pick-up and export handling, advanced cargo handling, advanced security measurements and capacity assurance.
