

# Rail / Road Freight Management

## Rail/Road Freight Ease

When you have a skilled freight management partner combining Rail and Road transport to ensure a timely and cost-effective shipping alternative, you have Agility's brand of Personal Service. We work closely with your business experts to get a thorough understanding of your supply chain requirements. By aligning our flexible freight products with your precise needs for time, space, frequency and cost, we implement solutions that deliver meaningful results. Our dedication is the driving force behind our mutual success and ultimate satisfaction for more than 20,000 employees in over 100 countries worldwide. With a wide freight products selection and capable, attentive handling, your shipments not only balance urgency and cost, they reach their destinations with individual care.

# A Seamless Multimodal Product ex China to Italy

## Rail/Road Freight Products

Agility's multimodal Rail/Road Freight product gives you the convenient alternative to conventional sailings and uplifts. The cost benefits and the rapid transit of rail bring added flexibility to your schedule. For example, if your supply chain departure is postponed, our Rail/Road combination offers a timely and economical option to keep transport on track. Our partnerships with reliable rail and road carriers enable us to offer seamless shipping, from origin to destination, for one rate, under a single document. We are on-site and on call in major rail and road hubs, taking care of your pick-up and import handling, advanced cargo handling, advanced security measurements and capacity assurance.

## Cost Savings

Agility's extensive rail and road portfolios allow us to create direct transits under a single rate, which can translate into a cost savings of up to 60 percent compared to Air Freight.

## Time Savings

Our flexible scheduling frees you from the time restraints of single-mode transportation. Expediting your shipment with Agility's Rail/Road product can decrease transit time by 50 percent, compared to Ocean Freight.
