About Agility

Agility Austria is an integral connector for European commerce. Its road freight network links Austria with other major hubs strategically located throughout Europe. Beyond road freight capabilities, Austria's air freight service is equipped to deliver and distribute locally within 24 to 48 hours. Premium carriers support Agility Austria customers' time-sensitive needs. As for ocean freight services, Agility delivers a global low container load (LCL) concept and full container load (FCL) connections with main gateways in Hamburg, Genova, Antwerp and Slovenia.

Services

- Air Freight
- Ocean Freight
- Road Freight
- Warehousing & Distribution
- Cross-border trucking
- Customs clearance

Customer Examples

Organizing special Air Charter Transport of a Rotor from Site in Dubai up to door Weiz in Austria and back

Agility was chosen to organize transport of a rotor (38,3 tons) from Dubai to Weiz, Austria and back to Dubai. Special Air Charter had to be arranged to move a piece that heavy. Experts from Agility Air Freight department had to coordinate all details to arrange smooth transport - organize unloading of aircraft, local import Airport handling and transport up to door consignee and pick-up from factory, local export Airport handling. Customs formalities for import and re-export, ordering special loading/unloading equipment, crane etc.

Panel bridge project Angola

The Angolan government went on to install a panel bridge project over the Cuso river. Agility has been timely delivering the panel bridges from Austria to Angola on door to door basis since December 2019. On top of the deliveries, Agility also arranges all documentation needed so the financing between the clients and the investment bank go smoothly including import license in Angola (document unico) and CNCA certificates.
