About Agility

Agility Hungary offers its customers a full service freight-forwarding portfolio covering all types of transport modes and brokerage services. Our central branch in Budapest is also supervising air and ocean related activities within our area, Central East Europe South, mainly in Romania, Slovenia, Croatia and Serbia. In April 2019, our company moved into a new, built to suite facility, Building 'F' within the Airport City logistics park in Budapest. Our general quality umbrella includes ISO, TAPA, we are AEO 'F' certified and hold the regulated agent license as well. In 2018, we became GDP certified concerning all freight forwarding activities and we also hold a license for transportation of isotope substances. We have furthermore strengthened our customs division, extended our financial guarantees. Our facility in Sárvár is an on-site keyboard printing (POD) solution operational since 2012 in the close proximity of our main POD partner. Our 1600 sqm site in Nagykőrös provides dedicated operation for one of our key customer's production plant. The operation is tailored to manage receiving, production fulfillment, finished product handling and return material management activities under full lot control
