About Agility

Agility Slovakia is poised to serve Eastern and Western European customers with its expansive 4,000 sqm warehousing space and distribution capabilities. Customers transporting goods around Europe will find Agility to be a reliable link to Eastern and Western Europe Countries. Customers have access to air, ocean and overland transportation, including full-truck and less-than-full truckload hauls. Air freight is handled through Vienna International Airport and ocean freight through Koper in Slovenia, as well as Hamburg and Bremerhaven in Germany. Customers in the chemicals, automotive, tech, industrial and retail sectors can rely on Agility and its contract logistics offerings. With a reserved space for up to 2,200 pallets of liquid ADR material, Agility is specially equipped for customers' dangerous goods storage needs.
