Middle East & Africa

Road Freight Service

Doing business in the Middle East

Agility's Middle East Road Freight services provide you with flexible and cost efficient solutions in order to meet your transportation needs. Whether Domestic, Cross border, LTL or FTL, Agility combines straightforward, standardized road freight products with customizable options to meet lead-time and capacity needs.

Domestic & Cross Border Distribution

Agility provides door-to-door deliveries for raw materials, semi-products and finished goods to any desired destination within the Middle East. Powered by our own fleet of vehicles and preferred haulers, Agility's Road Freight products provide the right capacity allocation and equipment for every type of shipment. We have direct access to all prime capacities, including Full Truck Load (FTL) and Less than Truck Load (LTL) transports, as well as specialized equipment like refrigerated vehicles or double stacking trailers.

Premier

Customers can choose precise pick-up and delivery times for total control of critical shipments. Our direct road transportation ensures speed and load availability at any time.

Value

We save money by shipping within predetermined timeframes. Our frequent and reliable schedules keep shipments moving efficiently and economically. With around-the-clock responsiveness for urgent inquiries, we deliver dependable, on-time performance.

Customs Clearance

A well-designed and well-managed customs clearance program reduces cycle times, improves shipment visibility and lowers cost. Our customs clearance experts take care of documentation and enable timely, reliable movement of goods through the customs process.

Tracking

Agility's online tracking tool offers the peace of mind that comes with complete transparency. Our proprietary technology provides easy, instant access to your freight status, allowing customers to follow individual shipments in real-time.

GCC LTL/FTL Express Bonded Network

Agility's GCC LTL/FTL Express Bonded Network provides LTL & FTL Express B2B solutions to connect customers with the GCC. When you need a time sensitive service, Agility enables you to quickly book with same day collection and movement of your freight on our scheduled daily LTL Express Network to the GCC region. Track your shipments online all the way to delivery.

Value-Added Services

We supply additional Road Freight services and handling care, including:

- ▶ Temperature controlled transportation
- ▶ Transport insurance
- ▶ Customs clearance
- ▶ Merge in transit
- ▶ Just-in-Time delivery
- ▶ Hazardous cargo transportation
- ▶ Reverse logistics
- ▶ Industry solutions
- ▶ Full track and trace
- ▶ Control tower solutions

Fleet Details

Agility provide specialized equipment, such as refrigerated vehicles or double-stacking trailers, and your local contact will help you to select most appropriate services for your requirements. All of our assets have GPS tracking solutions and air suspension for your shipment protection.

Supply Chain Visibility

With our Agility Connects platform, you have end-to-end visibility into your supply chain, giving you more transparency and control over your shipments. Our industry-leading customer portal helps the world's biggest businesses optimize complex supply chains and gives small businesses access to technology that helps them grow.

Ecommerce

Our extensive GCC network supports retailers and merchants who ship small parcels across the region. Parcels are consolidated, cleared taking into consideration the value of goods, and delivered using our Shipa Delivery division. Shipa specializes in the delivery of ecommerce products, be it cash on delivery, prepaid or mobile payment at your door. The express road network is also an ideal low cost solution to bring back undelivered parcels to fulfillment centers. Parcel tracking is also available across all GCC countries. For more information about Shipa please go to www.shipa.com
