

Agility Chemical Logistics

Customs Brokerage Excellence

Increased paperwork, customs formalities and tax demands post-Brexit could have resulted in some manufacturers losing business to E.U. competitors.

In the first 4 months of 2021, we helped our customers clear thousands of shipments and settled VAT bills to the value of £22 million. Our brokerage team worked in partnership with our customers to minimise increased costs and transits. With our well established European Agility partners, we created solutions that enable Chemical manufacturers to continue sales into the European Market.

Here is what our customers say

"In a short space of time via working daily with the Agility team and other legal and financial institutions we devised a robust plan."

"The level of support and personal sacrifices our respective team members made to get us where we are today was without doubt quite remarkable."

"The depth of support of the Agility team from all functional departments we received throughout this period was exemplary."

"A short line to let you know how pleased we are with the support and effort all of your team have put into getting us all through Brexit."

"When the time is right and we can meet again, we will find a way to ensure we celebrate this with the whole Agility team."

Key Benefits for our customers

- Redefined Processes
- Problem-solving ownership to ensure consistency of operational activity
- Significant workload reduction on customers' side
- Dedicated Agility customs brokerage team

At Agility, we work with our customers to develop solutions and offer support every step of the way.
